When to Plant: Best Feb-March

*plant in a well draining pot, be careful not to over-water & enjoy!
Have fun planting your seeds and remember that gardening is often experimental! Don't give up if a plant doesn't seem happy. Keep trying!

For more gardening information at your fingertips, the app "Seed to Spoon" is recommended.

THANK YOU

I grow plants for many reasons: to please my soul, to challenge the elements or to challenge my patience, for novelty, or for nostalgia, but mostly for the joy in seeing them grow.

David Hobson
